

GOVERNMENT OF KARNATAKA

No. RD 18 MRR/2011 (3)

Karnataka Government Secretariat,
M.S.Building, Ambedkar Veedhi,
Bangalore Dated 20-09-2011

CIRCULAR

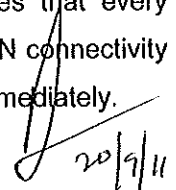

Sub: Provision of adequate hardware for ongoing survey data entry under the scope of UPOR project

Title Enquiry and Survey work is under progress in three districts of Mysore, Hubli and Dharwad as a part of ongoing UPOR project in Karnataka. Many surveyors have already been put on this job. The Survey data, generated on day to day basis, are required to be entered in the computer system for further analysis.

Timely entry of data is important for compliance to project timelines. Non-entry of data may hamper verification, corrective measures, further analysis and reporting resulting in time and cost over-runs.

It has come to notice of the Government that work is not proceeding as per plan due to lack of adequate number of hardware. This is leading to unwarranted delays in the project.

It is hereby directed that, Service Provider should supply required quantity of hardware in keeping with the requirements specified in UPOR RFP. The RFP specifies that every surveyor on work should be provided with one computer and UPS along with LAN connectivity and space to work. Compliance to this circular should be reported to this office immediately.

(RAJEEV CHAWLA)
Secretary to Government - (Bhoomi & UPOR)
Revenue Department.
