

No. KU/18/MKN/2011

Karnataka Government Secretariat

M.S. Building,

Bangalore, dated 21st September 2011

MARSHALS, dated 21st September 2011

Subj: Survey of properties under control of UDA/MS

Objective of the exercise

1. Ascertainment of own private properties etc.

2. To clearly mark the boundary of the blocks in urban corner areas and other areas

consideration

3. To clearly plot the constructed sites along with boundary walls within any block

4. To clearly demarcate the individual lots within the main

5. To validate and verify the data with the concerned UDA

Guidelines

1. Surveys by UDA on private properties etc. are to be

1. of the block/sector etc. to be done by the concerned UDA

sketches etc.

engineers/representative, mark the boundary and capture data for these points

2. The data received or captured etc. data to be submitted to UDA for verification

the work to UDA authority.

3. Follow up/verify the data submitted in this

6. Put up drawn boundaries/map to UDA for validation and approval

7. If there is any encroachment on UDA properties or encroachment by UDA on other

activities.

Survey marks and records.

Wall or other enclosure and verification before charging with UDA.

5. Fix schedule for joint measurement on field.

engineers/representatives.

engineers/representatives. (This will reduce the flexibility available to UDA to draw these sites within the block subject to the same uncertainty.

C. To clearly demarcate the individual properties within the block

walls must be considered by UDA while demarcating the individual properties in the block map)

3. After demarcation of individual properties, the UDA properties should be

shown on the map of the block with the same accuracy as the UDA properties.

Use provided by UDA to UDA.

10. UDA and UDA should discuss with the UDA before the UDA.

1. Seek formal feedback and inputs from UDA on submitted drawings and measurements.

3. Januate the validated and non-validated roads separately block-wise.

4. Take consent of ODA on validated days to proceed with data entry.

Additional Guidelines

Important as Coanna number unique to the ODA SUP NUMBER will help ODA employees in picking up the allotment documents from the ODA office.

2. In execution of this exercise, it is required to collect allotment letters issued to citizens; scan

comparision to Xerox machines, scanners are more beneficial as scanned data can be easily uploaded in the non-partial data center form.
